

TOP SECRET

DAILY STAFF MEETING

Tuesday, 11 September 1951

Colonel Hansen reported that:

- a. John Scalli, who is doing a story for COLLIERS on CIA, had requested some "operational items" which might be used. A few such items have been submitted by Mr. Kirkpatrick; however, General Wyman has indicated his disapproval. It was noted that Mr. [] felt that no harm could be done if the above items were made available to Scalli. This matter will be discussed at today's DD meeting.
- b. He was seeing Drew Pearson at 10:00 am today.
- c. The DCI had discussed at yesterday's IAC Meeting the statement that the IAC was not serving the purpose for which it was designed, and that as a result of this discussion the Director had indicated it might be appropriate to appoint a commission to examine the functions and operations of this Committee.

Mr. Reber noted that it was his opinion Admiral Johnson was getting "bum advice", and that after the IAC Meeting on the 10th he had discussed this matter with him at which time Admiral Johnson indicated that his present principal advisor was really his covert man and that he planned in the future to use someone with more rank and maturity.

Mr. Reber suggested that it might be beneficial to give the "flavor" of yesterday's IAC Meeting to the Assistant Directors - particularly in view of the DCI's remarks regarding the IAC. Mr. [] stated that he believed this could be adequately accomplished by spreading these remarks fully in the minutes.

[]

Mr. [] requested Mr. Reber to look into the matter of the conclusions of our NIE on Burma being contained in a FECOM report which was widely disseminated. In this connection, it was noted that recipients of NIE's did not have the authority to further disseminate these studies.

TOP SECRET

25X1

[] reported that:

- a. He and Mr. Reber were to discuss with Mr. Babbitt on Wednesday the security of CIA information furnished the Federal Civil Defense Administration.
- b. Dr. Langer was opposed to the exchange of information with [] (Dr. Langer will discuss this matter with Mr. Dulles.)
- c. The DCI had no objection to OCI comments on items that they published. In fact, it was the President's desire that we make comments as appropriate on items contained in the DIB. In this connection, it was also noted that ONE had been invited to send a member of its staff to sit on the Publication Staff of OCI in order that ONE might have a voice in comments made by OCI.
- d. He was to review with Colonel [] our present procedures regarding "projects".
- e. The DCI desired that information received pertaining to US future operations would not be disseminated outside the immediate office of the Director.
